ABOUT ME

Enthusiastic Information System Technology recent graduate from Northern Virginia Community College seeking to leverage academic knowledge in an industry career. Eager to learn new skills, and contribute in a dynamic environment with interpersonal relationships. I am looking for growing opportunities that will help to develop and enlarge my career profile. I believe continuous learning is the key to success.

EDUCATION

Northern Virginia Community College

2021 - 2024

AAS-Information Systems Technology Major

CSC-Web Design and Development Certificate

GPA: 3.9

Web Scripting Languages and Web design

I specialized in developing interactive client and server side web applications using technologies such as JavaScript, HTML5, CSS3, PHP, Bootstrap and MySQL. Learned and incorporated essential web page elements and responsive web design concepts.

Some projects I developed:

https://cami1425.github.io/Introduction_CamilaLopez/

https://cami1425.github.io/TravelColombia/

Software Design

Learned good principles and practices of software development with emphasis on critical thinking and problem-solving skills.

Python and Java Programming

Focused on fundamental object-oriented programming principles using Java and Python. Learned program construction, algorithm development, coding, debugging, and documentation for console and graphical user interface applications.

Database Management

Planned and implemented large databases. Including advanced concepts of data warehousing and database configuration, focused on incorporating practical skills for managing complex database systems effectively.

SKILLS

React, web development, responsive web design, javascript, HTML, CSS, bootstrap, asynchronous programming, SQL, Wordpress, OOP.

LANGUAGES

English - fluent proficiency

Spanish - native

CONTINUOUS GROWTH

Self conducted courses in Codecademy

React, React Router v6, React Testing, HTML, CSS, JavaScript, JavaScript: Asynchronous Programming, Bootstrap
